Join the CQO Movement

CQO:
The Health Care
Supply Chain

There has never been a better time than NOW to reinvent the supply chain strategy.

JOIN THE CQO MOVEMENT

CQO: The Definition

The CQO Movement looks at the intersection of, and the relationship between
Cost: all costs associated with caring for individuals and communities
Quality: care aimed at achieving the best possible health
Outcomes: financial results driven by exceptional patient outcomes

It is important that these relationships be considered together rather than in silos.

Explore educational opportunities and discover a wealth of materials developed specifically for health care supply chain professionals to help them effectively manage the quality and affordability of care.

Be a part of the movement and take the lead in revamping supply chain strategy by broadening its focus beyond cost, to include the correlation with quality and outcomes.

Patrick Stewart VP of Communications

The Board is working on next season's educational offerings. Planning and organizing the HMMS-NJ Annual John Brede Memorial Golf Outing is underway.

Healthcare Materials Management Society of NJ

is proud to present
